What is a Continuum of Care (CoC)?

Gerri Palmer

History

- 1987: Congress passed first federal law specifically addressing homelessness**
 - Stewart B. McKinney Homeless Assistance Act of 1987, later renamed the McKinney-Vento Homeless Assistance Act
 - Federal financial support for a variety of programs to meet the needs of individuals and families who are homeless
 - Programs administered by HUD's Office of Special Needs Assistance Programs (SNAPs)

CHDCO
Chicago Housing Development Corporation

Definition

According to HUD, a CoC is

- “a community plan to organize and deliver housing and services to meet the specific needs of people who are homeless as they move to stable housing and maximize self-sufficiency. It includes action steps to end homelessness and prevent a return to homelessness.”

CHDCO
Chicago Housing Development Corporation

History

- **From 1988 to 1993, HUD held national competitions for its homeless assistance funds every year**
 - Individual organizations throughout the country wrote applications
- **Since 1994, HUD has required each community to come together to submit a *single* comprehensive Continuum of Care (CoC) application** rather than allowing applications from individual providers in a community

CHDCO
Chicago Housing Development Corporation

History

- **HUD's intent for creating CoC's:**
 - Encourage a more structured and strategic approach to housing and services for people experiencing homelessness.

Purpose

- As an entity, a CoC serves two main purposes:
 - **Develop a long-term strategic plan and manage a year-round planning effort that addresses:**
 - Identifying needs of homeless individuals and households
 - Availability and accessibility of existing housing and services
 - Opportunities for linkages with mainstream housing and services resources
 - **Prepare an application for McKinney-Vento Homeless Assistance Act (McKinney-Vento) competitive grants**

Types of CoCs

- **Continuum planning efforts may be organized at a number of geographic levels:**
 - Single city*
 - City and surrounding county
 - Region
 - State
- **In 2010, 400+ CoCs across the country**

* Chicago's Continuum of Care is organized as a single city

Components of CoCs

Homeless Management Information System (HMIS)

Kathleen Molnar

42

HMIS Background

In 2001, Congress directed the Department of Housing and Urban Development (HUD), to:

- develop a way to generate an unduplicated count of individuals experiencing homelessness across the country,
- analyze patterns of homeless episodes among those in the homeless system, and
- use data to evaluate the success of homeless programs.

What is HMIS?

Homeless Management Information System (HMIS) is a HUD-mandated data collection tool that:

- Captures client-level information about the characteristics and service-needs of those experiencing or at-risk of homelessness
- Helps service providers coordinate referrals and service delivery
- Generates unduplicated count of homeless individuals
- Allows the study of patterns of service-use and measuring effectiveness of homeless programs

Chicago's HMIS

- Prior to 2008, Chicago homeless service providers used the software product known as Softscape
- In 2008, Chicago's HMIS Lead Agency, the Dept. of Family and Support Services (DFSS), changed Software Providers and chose Bowman's software product, known as ServicePoint.
- HMIS was implemented and is currently operated by DFSS.
- HMIS support and operation will be transitioning to the Chicago Alliance throughout 2012 and 2013.

HMIS Benefits for the Community

- Understanding the extent and scope of homelessness
- Unduplicated count
- Identifying service gaps
- Informing systems design and policy decisions
- Development of a forum for addressing community-wide issues

HMIS Benefits for Providers

- Tracking client outcomes
- Coordinating services, internally among agency programs, and externally with other providers
- Preparing financial and programmatic reports for funders, boards, and other stakeholders
- Information for program design decisions

HMIS Benefits for Consumers

- A decrease in duplicative intakes and assessments
- Streamlined referrals
- Coordinated case management
- Benefit eligibility

HMIS Participation & Requirements

Who Should Participate?

- All Homeless Service Providers, regardless of funding source, **except for providers that exclusively serve victims of Domestic Violence.**

HMIS Participation means your program is:
 “making a reasonable effort to record all universal data elements on all clients served in that bed and discloses that information through agreed upon means to means to HMIS.”

Why is it important to participate?

- It may eventually be required for your program, if not already
- Contributing to system-wide data to help identify system needs, gaps and solutions for ending homelessness
- Helping Chicago acquire additional resources for homeless system
- Enabling streamlined reporting at agency and system level

HMIS Participation & Requirements

What does it take to participate?

- Computer and access to internet
- Contact DFSS to set up program in ServicePoint
- Attend training
- Dedicate time for data entry of required data elements

HMIS Participation & Requirements

How to participate:

- Contact the HMIS Training and Technical Assistance help desk at (312)744-3282 to obtain a ticket number
- After receiving a ticket number, email the ticket number and request to set up a new program in HMIS to chicagohmis@cityofchicago.org

Chicago's 10-Year Plan to End Homelessness

- **“Getting Housed, Staying Housed”**
 - Development of Plan led by the Chicago Continuum of Care
 - Designed and approved by service providers, consumers, and government partners
 - Endorsed by Mayor Daley in January 2003 and priority of his administration

<http://thechicagoalliance.org/plan.aspx>

Shift in Service Philosophy

Shift in the provision of homeless services – from managing the problem of homelessness with emergency shelters, soup kitchens and other temporary assistance, to ending homelessness through the provision of permanent housing for those experiencing homelessness

The 10-Year Plan's 3 Key Strategies

- **Prevention:** Preventing individuals and families from becoming homeless in the first place
- **Housing First:** Placing individuals and families in permanent housing as quickly as possible when they do become homeless, and
- **Wraparound Services:** Providing wraparound services when appropriate to promote housing stability and self-sufficiency

The 10-Year Plan & the Program Models Chart

Creation of Program Models Chart

- Chart outlines the set of homeless programs that are considered to be in alignment with Chicago's Plan
- Developed and implemented by collaborative partners in 2006; revised in 2010

Use of Program Models Chart

- Programs that are aligned with the Plan have been prioritized for funding from a number of funding sources (HUD & City included)

10-Year Plan Accomplishments

- Developed a coordinated, centralized system to prevent homelessness;
- Doubled Chicago's stock of permanent supportive housing to over 7,000 units;
- Transformed our homeless system from one that provided shelter to one that is focused on permanently ending peoples' homelessness by placing individuals and families into appropriate housing as quickly as possible and wrapping services around them to ensure that they maintain their independence.

10-Year Plan Accomplishments

- Provided state-of-the-art services to special populations, including young mothers and their children, veterans, unaccompanied youth and aging homeless adults.
- Helped house some of our most vulnerable individuals off the streets and quickly into housing as part of a national campaign to house 100,000 chronically ill homeless individuals.

Plan 2.0

- **Plan 2.0**
 - Process is being led by a Steering Committee consisting of members from the Chicago Alliance, City of Chicago Mayor’s Office and Dept. of Family and Support Services (DFSS), Chicago Planning Council on Homelessness, and other community members.
 - Many opportunities for you to be involved!

Plan 2.0

- **Study Guide**
 - Provides an overview for Chicago's planning process for 2.0, the Community Planning Charrette in January, and issue areas
- **Kick-off Meetings**
 - Held in November
 - 135 people attended
 - 53 agencies, 45 consumers, 7 government agencies and 11 constituency groups provided written feedback on the study guide

What’s Next?

- **Community Planning Charrette – January 24 – 31**
 - January 24 & 25 - Expert Panels and Community Discussions on Top Issue Areas
 - January 27 - Community Feedback Meeting on Charrette Findings
 - January 31 - Release of Charrette Findings

We hope to see you there!

Thank You
