Presentation Take-Aways

Key Points

1. One List increased slightly & Inflow decreased in 2019
2. Number placed in permanent housing significantly less in 2019 than in previous periods
3. Focus on data which the system can impact

Next Steps

1. Identify resources & opportunities to increase permanent housing placement in 2019
2. Work towards a system-wide Diversion effort, which needs funding
3. Increase CoC unit turn-over to allow more people to get housed
4. Lines of Work continuing to use data to identify potential reasons for trends, such as lower non-CoC housing
