

Technical Assistance Resource: Chronic Homelessness

Training

Please encourage any untrained staff to attend a Chronic Homeless training led by All Chicago. To find the next training date, refer to All Chicago's training [course catalog](#). Please note that the Chicago CoC chronic homeless verification packet and policies can be found on the Chicago CES website.

Additionally, our local HUD office in collaboration with HomeBase TA providers will be hosting a training on housing first and coordinated entry in September. One area of focus will be on the chronic homeless packet and timing of supporting documentation. This is a great opportunity to ask questions directly to HUD. Please ensure you have a staff member attend one of the two training dates. Registration links:

[September 12th](#) or [September 13th](#).

[FAQ from HUD on Chronic Homelessness Documentation](#)

Date Published: July 2016

Question: "For many persons experiencing chronic homelessness, obtaining required third-party documentation can take a long period of time. Are recipients of PSH required to have all third-party documentation at the point of intake and enrollment of a program participant into a project?"

Answer: "The recordkeeping requirements included in the Final Rule on Defining "Chronically Homeless" are meant to ensure that, when applicable, permanent supportive housing (PSH) that is dedicated to serving persons experiencing chronic homelessness is being used to serve persons that meet the definition. It was never HUD's intention that these requirements act as a barrier to housing those most in need of PSH as quickly as possible. In fact, HUD believes that its final recordkeeping requirements for the definition of chronically homeless strike the appropriate balance and do not create a level of documentation that is too burdensome. This is part of the reason that HUD permitted each

project to serve up to 25 percent of the individuals and families in a given operating year who do not have at least 9 months of their stays in a place not meant for human habitation, safe haven, or emergency shelter documented by third-party documentation.

However, even with this 25 percent allowance, HUD has received comments that some additional time is often needed by recipients and subrecipients to obtain the appropriate documentation of an individual or head of household's chronic homeless status. Therefore, although the final rule requires documentation of eligibility at intake to the project, it does not require that all third-party documentation be acquired at the point of intake. HUD recognizes that it may take a little bit more time to obtain third-party documentation for documenting chronic homeless status in accordance with the final rule for prior months or occasions. Therefore, HUD has determined that although the recipient must follow the order of priority for obtaining evidence as required in the final rule, written self-certification at the point of intake for up to the full period of time homeless required by the definition of chronically homeless is sufficient (if no other documentation can be obtained at that point in time) for the recipient to enroll the household into the project. **The recipient then *must* work to obtain the required third-party documentation within 180 days from the point in which the project participant is enrolled in the project.** Project participants that have been enrolled in the project for less than 180 days may be excluded from the calculation for determining whether or not at least 75% of program participants have at least 9 months of third-party documentation.

Following the first 180 days from the point of a program participant's enrollment, if the recipient or subrecipient has not been able to obtain third-party documentation for at least 9 months of the individual or head of household's residence in a place not meant for human habitation, a safe haven, or an emergency shelter, then one of the following applies:

1. If the recipient or subrecipient has not already reached their 25 percent cap, the program participant can continue to be assisted in the project and the recipient or subrecipient must consider this program participant as counting towards their 25 percent allowance; or
2. If the recipient or subrecipient has already reached their 25 percent allowance, *no additional CoC Program funds* can be used to continue serving this household in that project. For this reason, HUD encourages recipients that are currently at their 25 percent allowance to use this additional time carefully and only for program participants where they are fairly certain that the required third-party documentation can be obtained. It is also for this reason that HUD encourages recipients and subrecipients to continue to obtain at least 9 months of third-party documentation for program participants, even after a program participant has been enrolled in the program for some time, because if a recipient is ultimately able to obtain 9 months of third-party documentation of a head of household's homeless status, then that household can be removed from the 25 percent calculation.

Example: Henry is a program participant that entered a project on June 1st. He reports that he has been living in a place not meant for human habitation, a safe haven, or an emergency shelter for the last 12 months. At the point of intake, there was only 2 months of third-party documentation of Henry residing in one of these locations. The recipient of PSH may obtain a self-certification from Henry for the

remaining 10 months in order to enroll Henry in the program and get him into housing. The recipient then has up to 180 days from the point of his enrollment to obtain at least 7 additional months of third-party documentation (to add to the 2 months that had been obtained at the point of intake) to get to the 9 months of required third-party documentation. At any point in time, the program will calculate whether or not they are meeting the requirement that at least 75 percent of program participants have third-party documentation for at least 9 months of their homelessness history based on program participants that enrolled after January 15, 2016 *and* had been enrolled in the program for 180 days or more. If the recipient is not able to do so, and is not at their 25 percent allowance, then they could continue to serve Henry, but must count him towards their 25 percent allowance. But, if the recipient was already at their 25 percent allowance, the recipient could no longer serve Henry in that project.

Please note, recipients must continue to obtain third-party documentation of the head-of-household's disability within 45 days, as required by the final rule."

[FAQ from HUD on When the Final Rule on Chronic Homelessness Went Into Effect](#)

Date Published: April 2016

Question: "When does the final rule on defining 'chronically homeless' take effect and who must be in compliance?"

Answer: "The Final Rule on Defining "Chronically Homeless" went into effect for the CoC Program on January 4, 2016 and HUD expected Permanent Supportive Housing (PSH) providers to begin using it for all new admissions as of January 16, 2016. This means, beginning January 16, 2016, any PSH projects required to serve persons that are chronically homeless (either dedicated or prioritized) may only accept new program participants that meet this definition. Dedicated permanent supportive housing is that which is targeted exclusively to the chronically homeless (unless there are no chronically homeless persons within the geographic area, as described in FAQ 1895). These beds are reported as dedicated to the chronically homeless in the Housing Inventory Count (HIC). Prioritized permanent supportive housing is that which is not specifically targeted for the chronically homeless but is prioritized for use by this population as beds become available through turnover. Recipients of CoC Program-funded permanent supportive housing that is either dedicated or prioritized are required to serve the chronically homeless in at least as many beds as indicated in the most recent grant application. These are the projects that are required to document a household's status as chronically homeless before filling a dedicated or prioritized vacancy.

Please note that the definition of chronically homeless established by this final rule does not apply retroactively to program participants who were admitted to a CoC Program-funded permanent supportive housing program *prior* to January 16, 2016. This includes both households that are already housed as well as those that were admitted and enrolled into a permanent supportive housing program but who have not yet located a suitable unit. Persons that were on a waiting list prior to January 16, 2016 but who have not yet been enrolled into a permanent supportive housing program will have eligibility assessed at the point in which they are enrolled into a program and will be required to meet the definition of chronically homeless included in the final rule."
