

# Diving into Chicago's Dashboard to End Homelessness Data Exploration and Analysis

## EVHI Data

During 2017, has the total outflow of Veterans moving into permanent housing or becoming inactive been greater than the inflow of Veterans entering the CoC?

Was there a period of time when the Outflow of Veterans was greater than the Inflow? If so, what months were included in this period?

## System Level Data

Participants Currently Experiencing Homelessness Assessed for Movement into Housing			
All Assessed		Not Assessed	
3,555 (34%)		6,782 (66%)	
Sheltered	Unsheltered	Engaged in Services	Exited Program
All Assessed	All Assessed	All Assessed	All Assessed
1,276 (36%)	2,447 (69%)	3,068 (86%)	181 (5%)
1,155 (89%)	1,355 (55%)	1,355 (44%)	2,989 (16%)

  

Status of Assessed Participants Currently Experiencing Homelessness			
Assessed - Not Yet Visited	Visited - Awaiting Housing	Visited - Permanent Housing	Unable to Visit
2,430	932	197	6
68.4%	25.9%	5.5%	0.2%

What number of youth experiencing homelessness have been assessed as part of the Coordinated Entry process?

Is there a location or place of engagement common to those youth that have been assessed to be connected to permanent housing?

## Project Level Data

Which Youth Drop in Program has 69% of its youth participants assessed as part of the Coordinated Entry process?

Which project has housed 4 youth in November of 2017?
